They’re very impressive.”

Only companies that score Highest in Quality and Helpful Expertise® earn Diamond Certified. What really separates Diamond Certified ratings from the star score averages at review sites is that a large, random sample of each company’s customers are surveyed by phone to get the most accurate ratings and verify only *real* customers are responding. By surveying from a company’s entire customer base, each company’s research results truly represent its customer satisfaction level. Most companies can’t pass the rating. Only those that do earn Diamond Certified and are backed by the Diamond Certified Performance Guarantee.
