“Bit Electrical Inc. has earned Diamond Certified for a decade, and we’re proud to add even more deep research about them in this new Summary Update,” says Greg Louie, founder and CEO of American Ratings Corporation, creator of Diamond Certified Resource. “When you read their survey responses and see photos of their jobs, they really stand out as an exceptional electrical contractor.”

Only companies that score Highest in Quality and Helpful Expertise earn Diamond Certified. What really separates Diamond Certified ratings from the star score averages at review sites is that a large, random sample of each company’s customers are surveyed by phone to get the most accurate ratings and verify only *real* customers are responding. By surveying from a company’s entire customer base, each company’s research results truly represent its customer satisfaction level. Most companies can’t pass the rating.

About Bit Electrical Inc.

[Bit Electrical Inc.](#) provides a complete range of electrical services for residential, commercial and industrial clients throughout the Greater Bay Area. The company handles all types of electrical jobs, from small tasks like installing light switches and replacing panels to complex projects like designing and installing lighting systems for new construction homes, and it can also perform electrical audits for customers who want to reduce their energy usage.
