[Company Story](#)

“Clean Array has earned our highest award, Diamond Certified, and now we’ve added to our deep research on the company in this new Summary Update,” says Greg Louie, founder and CEO of American Ratings Corporation, creator of Diamond Certified Resource. “When you read their survey responses and see photos of their jobs, they really stand out as a tremendous solar system cleaning company.”

Only companies that score Highest in Quality and Helpful Expertise earn Diamond Certified. What really separates Diamond Certified ratings from the star score averages at review sites is that a large, random sample of each company's customers are surveyed by phone to get the most accurate ratings and verify only *real* customers are responding. By surveying from a company's entire customer base, each company's research results truly represent its customer satisfaction level. Most companies can't pass the rating.

About Clean Array

[Clean Array](#) cleans all types of photovoltaic solar panels for residential and commercial clients in Sacramento, El Dorado, San Joaquin, and Solano Counties. In addition to using state-of-the-art equipment and industry-best cleaning techniques to make panels look like new, the company has the in-house capabilities to offer gutter cleaning and solar panel bird proofing services.
