“Hassler Heating & Air Conditioning, LLC has earned Diamond Certified for over a decade, and we’re proud to add even more deep research about them in this new Summary Update,” says Greg Louie, founder and CEO of American Ratings Corporation, creator of Diamond Certified Resource. “When you read their survey responses and see photos of their jobs, they really stand out as a tremendous HVAC contractor.”

Only companies that score Highest in Quality and Helpful Expertise earn Diamond Certified. What really separates Diamond Certified ratings from the star score averages at review sites is that a large, random sample of each company’s customers are surveyed by phone to get the most accurate ratings and verify only *real* customers are responding. By surveying from a company’s entire customer base, each company’s research results truly represent its customer satisfaction level. Most companies can’t pass the rating.

### **About Hassler Heating & Air Conditioning, LLC**

[Hassler Heating & Air Conditioning, LLC](#) is leading the way in California’s electrification efforts, providing comprehensive HVAC services that include maintenance, repairs, water heaters, ductless systems, full system replacements and heat pump conversions. Every project begins with an in-home evaluation to ensure equipment is properly matched for comfort and efficiency. To support long-term performance, Hassler may also recommend air sealing, insulation upgrades, high-efficiency windows or zoning technology. As a trusted contractor with extensive experience navigating regional incentive programs, Hassler helps customers access available rebates and manages the process from start to finish. In addition, the company offers professional electrical services such as panel upgrades, circuit additions, EV chargers and dedicated wiring to support home electrification.
