“Weeks Drilling & Pump Company has earned Diamond Certified for over two decades, and we’re proud to add even more deep research about them in this new Summary Update,” says Greg Louie, founder and CEO of American Ratings Corporation, creator of Diamond Certified Resource. “When you read their survey responses and see photos of their jobs, they really stand out as an excellent water well and pump company.”

Only companies that score Highest in Quality and Helpful Expertise earn Diamond Certified. What really separates Diamond Certified ratings from the star score averages at review sites is that a large, random sample of each company’s customers are surveyed by phone to get the most accurate ratings and verify only *real* customers are responding. By surveying from a company’s entire customer base, each company’s research results truly represent its customer satisfaction level. Most companies can’t pass the rating.

About Weeks Drilling & Pump Company

[Weeks Drilling & Pump Company](#) has been providing a complete range of water supply solutions for residential, commercial and municipal customers throughout the Bay Area since 1906. The company’s four departments work closely with each other to offer a variety of services, including well drilling, pump system installation, filtration system design and installation, and local public water system management. Weeks’ specialty is designing and constructing new wells to suit customers’ individual needs, and it also repairs and rehabilitates existing wells.
